FROM ITS MODEST BEGINNINGS IN 1940 AS A SCRAP PAPER STORE, LIBRERIA SALIMBENI IS today one of the most highly regarded bookstores for art and antiquarian subjects. Nineteen sixty-six saw the launch of Salimbeni's own publishing company, and although the first book suffered an untimely debut just days before the flood, the imprint continued through the 1990s to publish notable facsimile editions of Futurist books and periodicals, many of which are still available.

Presently, the second generation of Salimbeni, siblings Serenella and Stefano, continue the family tradition in offering an impressive catalogue (also available online) and expert service.
